The Institute of Audio Technology,  
Okhla, New Delhi

Waves Audio would like to congratulate Mr. Vikrant Jain and the team for this initiative to provide quality education and training in live and studio audio applications.

As world's leading developer of audio plugins and signal processors for the professional and consumer electronics audio markets, Waves has been a part of every engineer's life, be it in the studio or in the live arena.

We strongly believe in education and our website has a dedicated 'Learn' section with highly useful training videos made by leading engineers who love and use our products every day. We would like to officially confirm that we will partner with The Institute of Audio Technology to provide comprehensive training workshops on Waves LV1 Live Mixing Solutions and the Waves Plugins.

We wish The Institute of Audio Technology all success.

Thanks and regards,

Ravisankar Nadiyam

Regional Sales Manager  
Middle East and Southeast Asia
